# AFB™ 6650C

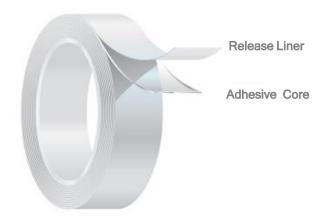

Avery Dennison AFB™ 6650C is a transparent acrylic tape with general purpose acrylic adhesive. This solid, dense adhesive offers consistent application performance and creates high internal strength. Clear acrylic core provides visual congruity when used with glass or clear materials. The integral core of solid acrylic polymer provides a structural grade adhesive, while solid composition leads to easy slitting. Suitable for mounting and attachment applications, including bonding handles to sliding glass, seals between inner and outer domes of skylights, backlit signs and edge bonding resin filled glass.

### **FEATURES:**

- · Tape with viscoelastic acrylic core
- · Closed cell structure
- Acrylic adhesive system
- Easy release polyethylene liner

## **BENEFITS:**

- High adhesion combined with good shear absorbs shock and distributes stress evenly
- Good moisture, UV and high temperature resistance
- Uniform bonding performance
- Can help eliminate the need for mechanical fasteners, drilling or grinding and related clean-up for certain applications
- Polyethylene liner helps provide good moisture stability and easier converting with its high tear strength

# **APPLICATION TECHNIQUES**

- . It is essential, as with all pressure-sensitive tapes, that the surface to which the tape is applied be clean, dry, and free of grease or oil
- Bond strength is dependent upon the amount of adhesive-to-surface contact developed
- Note that different pressure, time and temperature on different (film / rigid) surface achieves different performance

#### STORAGE / SHELF LIFE

• One year when stored at 64-72°F (18-22°C) / 30-70% relative humidity, out of direct sunlight and in original packaging.
